## DID YOU KNOW ...

BC, Ontario, Manitoba, Nova Scotia and Alberta are among the provinces offering Interactive Digital Media tax credits. Video games, educational software, and training simulators are all examples of interactive media (elements such as audio, video, text, images and animation).

Typically, companies register annually and obtain a Certificate of Eligibility from the respective province in order to claim the refundable tax credit which is then submitted with the company's annual T2 tax filing. The size of the credit varies by province but can add up to a significant refund.
