UPDATE

SUSTAINABLE CANADIAN AGRICULTURAL PARTNERSHIP

The Sustainable CAP brings together federal, provincial and territorial governments with a \$3.5-billion, five-year agreement to strengthen and grow Canada's agricultural sector. There is \$1 billion in federal programs and \$2.5 billion in cost-shared programs with provincial governments and the program runs to March 2028.

Sustainable Canadian
Agricultural Partnership
Competitive. Innovative. Resilient.

This marks an ambitious path forward to advance the five important priorities to increase agricultural sector competitiveness, innovation and resilience: *Building sector capacity, growth and competitiveness* • *Climate change and environment* • *Science, research and innovation* • *Market development and trade* • *Resiliency and public trust*.

NEED HELP STARTING A BUSINESS? IN THE MARITIMES?

CBDCs assist in the creation of small businesses and the expansion and modernization of existing businesses by providing financial and technical services to entrepreneurs, including: Financial assistance in the form of loans, loan guarantees and equity financing.; Entrepreneurship development and training to individuals and small businesses.; Technical assistance through guidance and coaching, and sometimes advocating on behalf of our clients.

DID YOU KNOW ...

... Aquaculture in Canada generates revenue of more than one billion (soon to be two billion) and employs tens of thousands. As one of the largest aquaculture producers in the world, we lead the way in innovation in an industry which is the fastest growing food production system in the world. Most of our food fish will soon come from aquaculture.

For some companies the investment in infrastructure is immense. Given the length of time before harvest for some species it requires vision and commitment. The DFO, our coastal provinces, and Canada's Ocean Supercluster are among the biggest supporters of sustainable aquaculture.
