CANADA'S DIGITAL SUPERCLUSTER

Canada's **Digital Technology Supercluster** has a vision to lead our digital world. It is an independent, not-for-profit organization created to make this a reality by accelerating R&D investment, technology adoption and the re-skilling of Canadian talent by introducing an industry-led innovation model.

Through a powerful combination of co-investment, collaborative R&D, IP creation, and digital talent development, the Digital Supercluster creates world-class solutions that will improve the health of Canadians, address climate change and power the digital transformation of Canada's economy.

ARE YOU AN INNOVATOR?

Innovative Solutions Canada helps Canadian innovators start, grow, and get to market. There are two streams to fund Canadian R&D and test prototypes in real-life settings. Why apply? Land the government as a client, retain your IP rights, maintain equity in your company, and receive 100% non-repayable funding.

ISC works with government organizations to launch challenges via the **Challenge Stream** where Canadian innovators compete for funding to prove the feasibility of their solution and build a prototype and via the **Testing Stream** where ISC buys late-stage, innovative prototypes from Canadian businesses and tests them in operational settings with government departments. Typical funding is $150,000 for Phase 1 and $1,000,000 for Phase 2.

DID YOU KNOW ...

... **Canadian Heritage** and its portfolio organizations play a vital role in the cultural, civic, and economic life of Canadians. **Arts, culture and heritage** _represent more than $57 billion in the Canadian economy and close to 673,000 jobs_ in sectors such as film and video, broadcasting, music, publishing, archives, performing arts, heritage institutions, festivals and celebrations.

Canadian Heritage's program budget of $1.7 billion (2022-2025) will support programs fostering creativity, innovation, growth, and employment opportunities in Canada's cultural sector from coast to coast to coast.
