

IDEAS: INNOVATION FOR DEFENCE EXCELLENCE AND SECURITY

Innovation for Defence Excellence and Security (IDEaS) accelerates concepts and propels solutions forward, building a defence innovation ecosystem. This is an opportunity for Canadian companies to help solve a challenge faced by the Canadian Armed Forces and get funding to advance their research. Get feedback on your technology from military experts and build your network.

IDEaS is comprised of five different funding elements (*Competitive Projects, Innovation Networks, Contests, Sandboxes, Test Drives*) and all have very different roles. IDEaS can help innovators move rapidly along the innovation continuum.

Funding up to **\$3 million** is available depending on which element you pursue.
