

DECEMBER 2025
UPDATE

NEXT GENERATION MANUFACTURING CANADA

Next Generation Manufacturing Canada (NGen) is dedicated to building world-leading advanced manufacturing capabilities in Canada for the benefit of Canadians. NGen leads Canada's Global Innovation Cluster for Advanced Manufacturing and helps bridge the gap between research and the development of advanced manufacturing technologies and their industrial application, production scale-up, and commercialization.

NGen has funded \$372 million in investments across 246 projects, leveraging \$596 million in additional innovation investments by industry and other funding partners. Open funding opportunities are always changing so be sure to keep an eye on NGen.

FARM CREDIT CANADA (FCC)

Farm Credit Canada's mission is to enhance rural Canada by providing specialized and personalized business and financial services and products to farming operations, including family farms, and to those businesses in rural Canada, including small and medium-sized businesses, that are businesses related to farming.

FCC supports companies across the food value chain ... **agriculture** (primary producers), **agribusiness** (adding value to agriculture), and **food and beverage** (processors, manufacturers, distribution, and more). With FCC in the market, producers benefit, agriculture benefits, rural Canada benefits and so do all Canadians.

DID YOU
KNOW ...

... if you are looking to grow in the Maritimes there are organizations ready to help. [Invest Nova Scotia](#), [Innovation PEI](#), [Opportunities NB](#), and the government of [Newfoundland & Labrador](#) along with the [Atlantic Canada Opportunities Agency](#) (ACOA) are all helping businesses become more competitive, innovative and productive.
